

## SUPERIA V2 CMI-TT

Dazzling performance

Sylvania's **CMI-TT** is a range of Ceramic Metal Halide lamps which use a high performance ceramic arc tube ensuring colour uniformity and stability throughout lamp life. They are a direct retrofit for High

Pressure Sodium lamps with a high quality white light and high colour rendition. Ideal for use in exterior applications such as car parks, security lighting etc.

## Superia V2 CMI-TT

High performance ceramic arc tube. High quality white light.

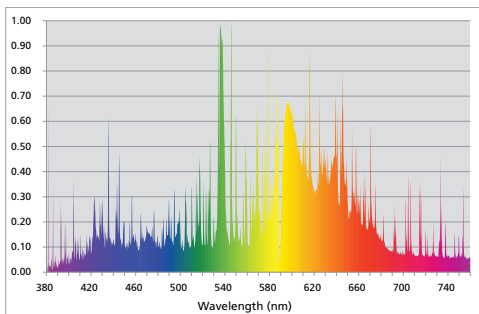

### FEATURES

- Unique and exclusively designed arc tube for optimal performance
- Ceramic arc tube ensures colour uniformity and stability throughout lamp life
- Very high luminous efficiency up to 109 lm/W
- Improved Colour Rendering Index
- For use only in luminaires equipped with a protective cover glass
- Direct retrofit for High Pressure Sodium lamps for pleasant white light with high colour rendition
- Exterior applications such as car parks, perimeter lighting, security and building entrances.
- CMI-TT lamps can be "Dimmed" in accordance with the "Dimming Condition" specified on the datasheet available on the website
