Installation Procedure

Remove trim/diffuser assembly (H) from housing (A).
 NOTE: Use a 4mm socket key and partially undo each screw in turn, repeat procedure until all screws are free.

Check rating marked on label (J) conforms with mains electrical supply.

Remove reflector (G).

Unscrew gear plate fixing screws (L) insert fingers in holes (K) and pull gear plate from housing (A).

Drill 5mm clearance holes in housing for outrigger and M4 clearance holes for conduit box screws.

Prepare suitable fixings in mounting surface for outrigger screws.

NOTE: Housing (A) is marked 'TOP' for wall mounting.

Pierce a grommet and push cable into housing (Fig.1)

Secure housing (A) to conduit box if applicable using M4 screws. Use suitable screws with supplied seal washers (C) for outrigger fixing. NOTE: Sealing face of washer to face housing.

Cover supply leads with supplied silicone sleeving and connect leads in respectively marked terminals in terminal block (D).

Push cable back into grommet and apply sealant (Fig. 1).

Align gear plate cut-out (E) with housing rib (B), push gear plate (F) in position and tighten fixing screws (L).

Re-fit reflector (G).

Fit appropriate lamp as indicated on label (J).

Secure trim/diffuser assembly (H) to housing (A) using 4mm socket key.

WARNING: To ensure IP65 rating, Waterproof silicon adhesive must be applied around all grommet cable entries and under heads of fixing screws.

Suitable for use indoors
 Geeignet für Innenanwendung
Pour un usage interne
 Adecuada para uso en interiores
Geschikt voor gebruik binnen
 Lämplig för inomhusbruk

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.
