These luminaires are designed for interior use only.

These luminaires should be installed by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

Installation Procedure

Switch off mains electrical supply.

Remove the cover plate from the mounting bracket. Teak covers slide off in an upwards direction. 'Snap On' covers are removed by gripping the sides with the fingers whilst applying thumb pressure to the centre of the cover.

Pass the mains supply leads through the large aperture in the mounting bracket. Fix the bracket and, if appropriate, the switch assembly to the conduit box/mounting surface using suitable screws.

Connect the mains earth lead (E) to the marked earth terminal on the mounting bracket. Connect the blue (N) flying lead/s to the mains supply neutral lead using a terminal block.

For switched types connect the brown (L) flying lead/s to the vacant terminal of the switch. Connect the Brown (L) flying lead/s of unswitched types, or the Brown lead from the switch, to the live lead of the mains supply using a terminal block.

Locate the terminal blocks and leads in the conduit box. Locate the pull cord of the switched types in the central groove of the mounting bracket and replace the cover.

Shade Fitting

Pass the wide slots in the base of Reedline shades over the retaining arms and rotate the shade until the arms engage the narrow slots.

Unscrew and remove the shade ring from Ringline and Opalite Cylindrical. Pass the central hole of the shade/glass over the lampholder and re-fit the shade ring.

Fit appropriate lamp/s as indicated on the labels or markings.

WARNING: These luminaires must be earthed.

NOTE: These luminaires should be cleaned using warm soapy water and a soft cloth. Ensure that the luminaire is switched off during cleaning.

Dispose of lamps in accordance with manufacturer's instructions.

Suitable for use indoors

Geeignet für Innenanwendung
Pour un usage interne
 Adecuada para uso en interiores
Geschildt voor gebruik binnen
 Lämpelig för inomhusbruk

Replace any cracked protective shield.
