Switch Off
Abschalten
Débrancher
Desconectar
Uitschakelen
Stäng av

These luminaires are only suitable for interior mounting to a 50.8mm conduit box or directly to mounting surface.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

INSTALLATION PROCEDURE

Offer ceiling plate (B) to mounting surface or conduit box as applicable and feed mains supply and switch cables through knockouts (A).

Secure ceiling plate (B) to conduit box or mounting surface using suitable countersunk screws.

Connect cable leads to their respective terminals in ceiling plate as shown in wiring diagram.

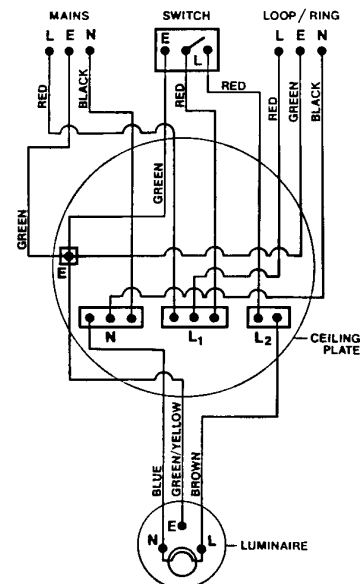

Feed pendant cable (D) through ceiling plate cover (E) and connect leads to their respective terminals in ceiling plate. Locate live and neutral leads over restraining lugs (C).

Screw ceiling plate cover (E) on ceiling plate (B) ensuring that cable sheathing protrudes into cover.

Push lampholder on support plate spigot (L). NOTE: For LE series, locate louvrestack (J) over lampholder shroud (K) before pushing shroud onto support plate spigot (L).

Fit appropriate lamp as indicated on label (F), followed by sphere or globe (H) which should sit concentrically on support plate (G).

WARNING:
THIS LUMINAIRE MUST BE EARTHED

Replace any cracked protective shield.
