This luminaire is suitable for interior wall or ceiling installation to a flush mounted conduit box having 50.8mm fixing centres. This luminaire is suitable for exterior mounting when installed in conjunction with a conduit box sealing kit - 0005 A02.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

INSTALLATION PROCEDURE

Remove diffuser (F) from gallery (B) by twisting a coin in slot (C) provided. Check that rating marked on label (H) conforms to mains electrical supply.

Loosen gear tray fixing screws (J) and remove gear tray (E) from gallery (B).

Clear appropriate fixing holes in gallery (B).

NOTE: if wall mounting, gallery (B) should be installed to allow loops of lamp to be at the TOP.

Pass mains supply leads through central hole in gallery (B) and secure gallery to conduit box using suitable M4 screws. For exterior mounting refer to Installation Instructions supplied with conduit box sealing kit - 0005 A02.

Cover mains supply leads with supplied silicone sleeving (D).

Pass sleeved leads through gear tray (E), place gear tray in gallery (B) and secure in position.

Connect supply leads to their respectively marked terminals in terminal block (G), ensuring silicone sleeves about terminal block (G).

Fit appropriate lamp as indicated on label (H).

Fit diffuser (F) by pressing it firmly on gallery (B).

WARNING: THIS LUMINAIRE MUST BE EARTHED

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.
