This luminaire is suitable for interior wall or ceiling mounting to a flush mounted conduit box having 50.8mm fixing centres. This luminaire is suitable for exterior mounting when used in conjunction with a conduit box sealing kit - 0005-A02.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

**INSTALLATION PROCEDURE**

Remove diffuser (G) from gallery (A) by twisting a coin in slot provided between diffuser and gallery.

Check rating marked on label (J) conforms with mains electrical supply.

Loosen gear tray fixing screws (B) and remove gear tray (E) from gallery (A).

Clear appropriate fixing holes and cable entry hole in gallery.  
NOTE: Drain hole (C) to be at bottom if wall mounting.

Interior mounting - Pass mains supply cable leads through central hole in gallery and secure gallery to conduit box using suitable M4 screws.  
Exterior mounting - Refer to installation instructions supplied with sealing kit - 0005 A02.

Cover supply leads with supplied silicone sleeving (D).

Pass sleeved leads through gear tray (E), locate gear tray keyhole slots over fixing screws (B) and tighten screws.

Connect mains supply leads in respectively marked terminals in terminal block (F). Ensure silicone sleeving is clear of choke (H).

Fit appropriate lamp as indicated on label (J).

Fit diffuser (G) by pressing it firmly on gallery (A).

**WARNING:**  
**THIS LUMINAIRE MUST BE EARTHED**

**Replace any cracked protective shield.**
