This luminaire is suitable for interior wall or ceiling mounting to a 50.8mm conduit box or directly to a mounting surface, or can be semi-recessed using a Semi-Recessing Kit.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

Installation Procedure

Carefully remove diffuser (D) as shown.

Check that rating on luminaire label (C) conforms with mains electrical supply.

Partially screw the M4 screws into the conduit box or prepare suitable fixings in the mounting surface at 192mm centres for outrigger holes (B).

Fit supplied grommets (G) in gallery (A).

Pass mains supply leads through grommet.

Secure gallery (A) to conduit box or to the mounting surface using suitable round headed screws through the outrigger holes (B).

Cover the live and neutral mains supply leads with the silicone sleeving supplied and connect supply leads and earth lead in respectively marked terminals in terminal block (F).

Fit appropriate lamp as indicated on the luminaire label (C) by pushing it firmly into lampholder.

Fit diffuser (D) in gallery rim as shown, ensuring it is held concentrically by the retaining clips (E).

Suitable for use indoors
Geeignet für Innenanwendung
Pour un usage interne
Adecuada para uso en interiores
Geschikt voor gebruik binnen
Lämplig för inomhusbruk

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.
