These luminaires are suitable for mounting in interior situations only. They have been designed for fixing to a flush mounted conduit box, having 50.8mm fixing centres, or directly to the mounting surface.

This luminaire should be installed by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

Installation Procedure

Switch off mains electrical supply.

Unscrew the domed cover from the gear unit assembly.

Loosen the two cable clamp screws.

Remove the mounting plate from the gear unit and secure it to the conduit box using suitable M4 screws. Offer the gear unit to the mounting plate and feed the mains supply cable/s and the switch cable, as appropriate, through the cable entry holes. Secure the gear unit to the mounting plate, and connect the cable leads to their respective terminals in the terminal blocks. (see wiring diagram below and termination label on gear unit). NOTE: If a conduit box is not being used, discard the mounting plate and secure the gear unit to the mounting surface using screws through the outrigger holes.

Feed the cable from the pendant assembly through the domed cover and cable clamp. Fully tighten the cable clamp screws and connect the leads to their respective terminals in the terminal block marked 'LAMP'.

Screw the domed cover onto the gear unit.

Push the lampholder shroud onto the support plate spigot. NOTE: In the case of the LP series, locate the louvrestack over the lampholder shroud before pushing it onto the support plate spigot.

Fit the appropriate lamp, as indicated on the luminaire label followed by the sphere which should sit concentrically on the support plate.

WARNING: This luminaire must be earthed.

NOTE: This luminaire should be cleaned using warm soapy water and a soft cloth. Ensure that the luminaire is switched off during cleaning.

Dispose of lamps in accordance with manufacturer's instructions.

Suitable for use indoors

Geeignet für Innenanwendung

Pour un usage interne

Adecuada para uso en interiores

Geschikt voor gebruik binnen

Lämplig för inomhusbruk

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.

Ce symbole indique que vous devez remplacer tout verre de protection fêlé.

Este símbolo indica que hay que 'reemplazar filtros en caso de rotura o desperfectos'.

Dette symbolet indikerer at alle ødelagte (sprukne) sikkerhetglass må skiftes.

Valaisinta ei saa käyttää ilman suoja-alasia vioitunut suoja-alasi on vaihdettava uuteen ennen valaisimen käyttöön ottoa.
