This luminaire is suitable for interior wall or ceiling installation to a flush mounted conduit box having 50.8mm fixing centres. This luminaire can be exterior mounted when used in conjunction with conduit box sealing kit - 0005 A02.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

INSTALLATION PROCEDURE

Remove diffuser (D) from gallery (A) by twisting a coin in slot (H) between diffuser and gallery.

Check rating marked on label (C) conforms with mains electrical supply.

Loosen gear tray retaining screws (G) and remove gear tray (B).

Clear appropriate fixing holes and cable entry hole in gallery (A).

NOTE: If wall mounting, install gallery (A) with coin slot at the bottom.

Feed mains supply cable through cable entry hole in gallery, and secure gallery to conduit box using suitable M4 screws. For exterior installation refer to installation instructions supplied with conduit box sealing kit - 005 A02.

Pass mains supply cable through gear tray (B), locate gear tray keyhole slots over conduit box screw heads, rotate gear tray and tighten retaining screws (G).

NOTE: If wall mounting, install gear tray (B) with lampholder to the TOP.

Connect mains supply cable leads in respectively marked terminals in terminal block (E).

Fit appropriate lamp as indicated on label (C) by pushing it firmly in lampholder and locating free end in support clip (F).

Fit diffuser (D) by pressing it firmly on gallery (A).

WARNING:
THIS LUMINAIRE MUST BE EARTHED

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.
