This luminaire has been designed for recessed ceiling mounting in interior situations, and is suitable for mounting in combustible surfaces and recesses.

The luminaire requires ceiling aperture of 225mm diameter and a recess depth of 255mm.

This luminaire should be installed by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Installation Procedure

Switch off mains electrical supply.

Extract the three mounting clips from the gallery as shown in Fig. 1.

Offer the gallery to the prepared ceiling aperture and connect the flexible cable leads to the mains electrical supply using a remote junction box in the ceiling void.

Insert the gallery into the ceiling aperture and secure it in position with the three mounting clips as shown in Fig. 2.

NOTE: Two clip positions are provided, the lower position for ceiling thickness from 5-15mm and the upper position for ceiling thickness from 15-25mm.

Loosen the reflector retaining screws and place the reflector keyhole slots over the heads of the retaining screws, rotate the reflector clockwise, and fully tighten the screws to secure it in position.

Fit the appropriate lamp as indicated on the luminaire label, by screwing it firmly into the lampholder.

WARNING: This luminaire must be earthed.

NOTE: This luminaire should be cleaned using warm soapy water and a soft cloth. Ensure luminaire is switched off during cleaning.

Dispose of lamps in accordance with manufacturer's instructions.

Suitable for use indoors
 Geeignet für Innenanwendung
