 Stäng av

The 9169 P series luminaire has been designed to operate from a single phase 240AC supply and incorporates dual circuits, one circuit for illumination of the central lamp and the other for the two outer lamps.

The installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Installation Procedure

Switch off mains electrical supply before commencing installation.

Check that the rating marked on the luminaire label conforms with the mains electrical supply.

Determine the required location for mounting the luminaire and partially screw in suitable round headed screws into the mounting surface. The luminaire can be secured by utilising the three equispaced holes as shown in the illustration or alternatively, by the two opposing holes.

Pierce the mains supply cable grommet. Offer the gallery to the mounting surface and feed the mains supply cable through the grommet. Locate the gallery mounting holes over the fixing screw heads, position the slip washers under the screw heads and tighten the screws.

Connect the mains supply cable leads to their respectively marked terminals in the terminal block (see inset diagram).

Fit the appropriate lamps by pushing them firmly into the lampholders and locate the diffuser in position over the three retaining clips in the gallery.

WARNING: This luminaire must be earthed.

NOTE: This luminaire should be cleaned using warm soapy water and a soft cloth. Ensure that the luminaire is switched off during cleaning.

Dispose of lamps in accordance with the manufacturer's instructions.

Suitable for use indoors

Geeignet für Innenanwendung
Pour un usage interne
 Adecuada para uso en interiores
Geschildt voor gebruik binnen
 Lämplig för inomhusbruk

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.

Ce symbole indique que vous devez remplacer tout verre de protection fêlé.

Este símbolo indica que hay que reemplazar filtros en caso de rotura o desperfectos.

Dette symbolet indikerer at alle ødelagte (sprukne) sikkerhetglass må skiftes.
