This luminaire is suitable for interior wall mounting to either a flush mounted conduit box with 50.8mm or 60mm (European) fixing centres or directly to mounting surface.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

**INSTALLATION PROCEDURE**

Unscrew lamp bracket retaining screw (A) and detach lamp bracket assembly (K) from wall plate (G).

Partially screw suitable M4 screws (E) in conduit box lugs (50.8mm boxes only), or prepare suitable fixing holes in mounting surface if using wall plate outrigger fixing holes (I).

Pass mains supply cable (F) through wall plate (G) and secure wall plate to conduit box or mounting surface using suitable screws, as appropriate, ensuring wall plate is vertical.

Feed mains supply cable (F) behind terminal plate (C) and connect leads to their respectively marked terminals.

Connect flying leads from lamp bracket to their respectively marked terminals.

Locate lamp bracket assembly (K) on wall plate clip (H) and tighten lamp bracket retaining screw (A).

Remove shade ring (N) and washer from lampholder (L). Secure shade in position with washer (M) and shade ring (N).

Push appropriate lamp (O) as indicated on label (B) in lampholder (L).  
 NOTE: It is advisable to support lampholder (L) when inserting lamp (O) to avoid any distortion of lampholder arm.

**WARNING:**  
 THIS LUMINAIRE MUST BE EARTHED

**Replace any cracked protective shield.**
