

Disconnect from mains supply before replacing the fuse or the lamp.
 Vor dem Einsetzen der Sicherung oder der Lampe Spannungsfreiheit herstellen.
Débrancher le secteur avant de remplacer le fusible ou l'ampoule.
 Desconectar del suministro de la red, antes de realizar la sustitución del fusible o de la lámpara.
Voor het vervangen van lamp of zekering, eerst netspanning uitschakelen.
 Koppla bort spänningen före byte av en säkring eller en lampa.

Switch Off
 Abschalten
Débrancher
 Desconectar
Uitschakelen
 Stäng av

This series of luminaires are suitable for interior ceiling mounting to a 50.8mm conduit box or directly to the mounting surface.

Installation should be carried out by a suitably qualified person, in accordance with good electrical practice and the appropriate national wiring regulations.

Switch of the mains electrical supply before commencing installation.

GEAR UNIT INSTALLATION-Figure 1.

Unscrew domed cover (F) from gear unit (C) and check that the rating marked on label (H) conforms with the mains electrical supply.

Remove mounting plate (B) from the gear unit (C) and secure plate to conduit box using suitable M4 screws, or if fixing gear unit to mounting surface, mark hole positions using mounting plate (B) as template and discard mounting plate.

Feed mains supply cable (A) through gear unit (C). Secure gear unit (C) to mounting plate (B) with screws supplied, or to mounting surface using suitable round headed screws through outrigger holes (J).

Connect cable leads in terminal block (D). For Loop/Ring and Switch wiring refer to Wiring Diagram.

Pass pendant cable (G) through domed cover (F) and gear unit cable clamp (E). Connect pendant leads in terminal block (I). Tighten cable clamp screws (E) and screw domed cover (F) on gear unit (C).

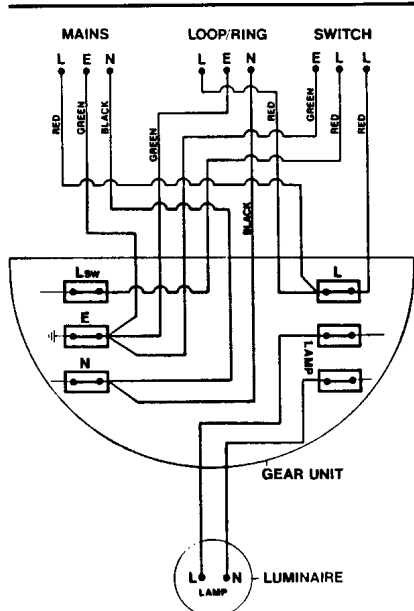

FITTING LAMP & GLOBE - Figure 2.

Fit light - tube (B) on lampholder tube with mounting pins (D) - 8042 Series only.

Insert appropriate lamp as indicated on label (A). Locate globe (C) between support plate (E) and cover (F), and secure with retaining screws (G).

Note:

Do not overtighten cover screws.

Replace any cracked protective shield.

Dieses symbol bedeutet, dass defekte Schutzgläser sofort ersetzt werden müssen.

Ce symbol indique que vous devez remplacer tout verre de protection fêlé.

Este simbolo indica que hay que 'reemplazar filtros en caso de rotura o desperfectos'.

Dette symbolet indikerer at alle ødelagte (sprukne) sikkerhetglass må skiftes.
