This luminaire is suitable for exterior wall or ceiling mounting to a 50.8mm conduit box or directly to a mounting surface.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

Installation Procedure

Conduit Box Fixing

Drill 2 x 4.5mm diameter holes (C) in gallery.

Pierce sealing washer (A) and gallery grommet (B). Pass mains supply through washer and grommet and secure gallery to conduit box using suitable M4 screws.

Outrigger Fixing

Prepare fixings in mounting surface at 190mm centres.

Drill 2 x 4.5mm diameter holes (D) in gallery.

Pierce gallery grommet (B), pass mains supply cable through grommet and secure gallery to mounting surface using suitable round headed screws with the sealing washers (E) supplied.

If wall mounting, drill a 6mm diameter hole at base of gallery and fit drain plug (K) as shown in Fig. 1. Remove excess plug.

Pass mains supply cable through gear unit (H), and secure gear unit to gallery.

Cover supply leads (J) with heat resistant sleeving supplied and connect leads in respective terminals in terminal block.

Fit appropriate lamp as shown on label (F) and fit diffuser (G).

WARNING: This luminaire must be earthed.
