WARNING: This high frequency luminaire must not be insulation tested.

This luminaire is suitable for interior ceiling mounting.

Installation should be carried out by a suitably qualified person in accordance with good electrical practice and the appropriate national wiring regulations.

Switch off mains electrical supply before commencing installation.

Ensure mounting surface i.e. low density tiles, uneven surfaces etc. are compatible with luminaire.

Installation Procedure

Refer to Table A for aperture and recess dimensions.

NOTE: A minimum of 75mm is required between housing and recessed enclosure.

Prepare aperture in mounting surface.

Remove cover from plug (C), connect mains supply cable leads in respectively marked terminals as shown in Fig. 1. Refit plug cover.

Remove glass disc from housing if applicable (see Fig. 4).

Rotate the quarter turn reflector fastener (E) 90 degrees to release reflector from housing.

Remove mounting clips (A) from housing as shown in Fig. 2.

Connect plug (C) in luminaire socket.

Insert luminaire in ceiling aperture and retain with mounting clips (A) as shown in Fig. 3.

Insert reflector (F) in housing and firmly push reflector fastener (E) in until reflector flange locates on housing.

NOTE: An audible click should be heard or felt when the fastener is fully engaged.

Fit appropriate lamp/s as shown on label (D).

Replace glass disc if applicable (see Fig. 4). Ensure chrome retaining knobs (G) are screwed fully home.
